

D800 D1200 Dehumidifiers:

D800:

Suitable for space up to 80sqm

Ref No: VGDES720016P

D1200:

Suitable for space up to 120sqm

Ref No: VGDES720018P

Functions:

Humidistat

For all humid spaces

Operating range -20°C to +40°C

Flexible installation (wall, floor or ceiling)

Quiet operation with automatic restoration after a power failure

Portable and easy to position

Technical data:

Supply Voltage (12V-400V) 230V AC

Electrical Supply Phase 1-Phase

Type of motor AC

Unpackaged Product Width (mm) 200

Unpackaged Product Height (mm) 200

Unpackaged Product Depth (mm) 200

Description:

The Fresh sorption dehumidifier is one of the smallest tankless dehumidifiers on the market and a very good solution for e.g. crawl space and attic dehumidification. These dehumidifiers are also suitable for other humid spaces, such as laundry rooms, holiday homes, boats and caravans.

These dehumidifiers do not have any water reservoir that needs to be emptied. With sorption dehumidification, the moisture disappears in a weak flow of air via the exhaust air hose. The dehumidifier can be attached to any flat surface, such as a wall, floor or ceiling.
