

# AIR IONIZER

## Portable

**Maintenance-free (No Filters):** Forget expensive replacements and complicated cleans. Thanks to its ionization technology, it continuously purifies the air without the need for physical filters.

**Superior Ionization Power:** Releases a massive density of up to 130 million of negative ions per  $\text{cm}^3$ . This charge acts as a magnet that precipitates contaminants, removing them from your breathing zone

▶ **Smart Global Energy:** Equipped with an integrated dual-voltage system, ensuring optimal and safe performance anywhere in the world or under different power sources.

▶ **Instant Shock Action:** Its purification and rapid deodorization technology eliminates unpleasant odors and harmful particles in record time, refreshing the environment immediately.

**Forest Air Effect:** Experience the revitalizing sensation of breathing in full nature. The negative ions replicate the freshness of natural environments, reducing stress and improving your concentration.

### Ionization Technology Advanced

Equipped with a powerful negative ion generator designed to neutralize germs, bacteria and harmful particles, ensuring a pure and healthy environment.

### Versatile Connectivity (USB)

Easy to connect and highly compatible; ready to operate by connecting it to a mobile phone, computer or any USB output port.

### Compact and Ultra-portable Design. Intelligent LED Lighting

Its light and compact build makes it the ideal companion to take anywhere, ensuring clean air at all times. It incorporates a varied range of color lights that blink dynamically, visually indicating the function the device is performing.

A device designed to operate with minimal noise, low power consumption, that cares for the environment and optimizes energy performance without sacrificing power.

### Energy Efficiency Quiet

#### How does Ventilair Fresco work?

The **Ventilair Fresco** ionizer purifies its surroundings using negative ionization technology. By generating a high concentration of ions, the device actively neutralizes contaminants present in the air.

Backed by international studies, eco-grade ionizers manage to capture ultrafine particles, forcing their condensation and precipitation. Thanks to its advanced eco-technology, it can precipitate the finest dust and PM2.5 particles that often go unnoticed. Its effectiveness is astonishing: even the tiniest microparticles are actively removed to protect your health and your family's.

Supported by scientific research, discover below the results of lab tests certifying the elimination rate of bacteria and PM2.5 contaminants from our infallible **VENTILAIR FRESCO**.

## LED Indicator Guide

**BLUE** (Button/Breathing) Sleep Mode

**GREEN** (Button/Breathing) Negative Ion Mode

**RED (Button) Low Battery Warning (<20%)**

**BLUE** Blink 3 times: Charging in progress

**GREEN steady: Fully charged**

**BLUE** Charging while off

## Operating Guide

### Power On and Mode Switching

- Power On / Off: Press and hold the power button for 3 seconds.
- Mode Change: With the device on, briefly press the power button to toggle between Sleep Mode and Negative Ion Mode.
- Indicator Control: Briefly press the light button to turn the indicator light on or off.

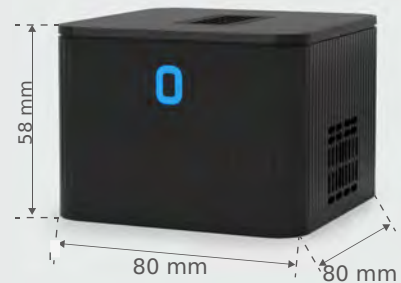

### Battery and Charging Management

- ▶ Low Battery Warning. The light behavior varies depending on whether the device is on or off:
  - **Red** pulsing light: Indicates battery level is below 20% and requires immediate charging
  - Charging with the device on: The **blue** light will blink 3 times to confirm the start of charging and then the indicator will return to show the color of the mode you were using (sleep or negative ions).
  - Charging with the device off: The **blue** light will blink 3 times and then stay steady throughout the process.
- **Green** steady light: The device is fully charged and ready to use.

## Technical Parameters

Operating Temperature	-10°C to 60°C, RH.≤ 80%.
Operating Voltage	DC 12V
Input Voltage	DC 5V
Power	0.85W
Current	0.23A
Battery Capacity	3500mAh
Battery Life	≥10H
Net Weight	220g
Product Size	80mm×80mm×58mm

## VENTILAIR FRESCO. Clean air, wherever you are

When you sleep

Where you relax

Where you work

When you travel
